

Strong Connections

Strong Connections will take place at Landmark Elementary on September 13th and 16th, 2019. Students will attend school on either the 13th or the 16th. With half the students present, the teacher will have the opportunity to meet individually and with small groups of students.

Strong Connections is a day designed to build the relationships between teachers and their students and enhance the beginning of the year assessments. When students are not in the homeroom they will take part in other learning activities within the school.

Stay tuned for pictures of the collaborative art project that students will take part in. Please check Parent Portal to confirm if your child will attend school on the 13th or the 16th.
